Project Name	Global Fuel Prices & Taxation (2020–2026)
Maximum Marks	2 Marks

Customer Journey Map

Map the user's experience stage-by-stage while exploring global fuel prices and taxation.
Capture actions, dashboard touchpoints, thoughts, feelings, ownership, and improvement opportunities.

Phase of Journey	**Stage 1** **Explore & Discover**	**Stage 2** **Analyze & Compare**	**Stage 3** **Interpret & Communicate**
Actions ***What does the user do?***	• Opens the Global Fuel Overview dashboard and checks the world map.	• Uses Region and Income Level filters; compares average petrol, diesel, and LPG prices.	• Reviews fuel trends and taxation charts, then summarizes observations for a report.
Touchpoints ***What does the user interact with?***	• Global Petrol Price Map and Regional Petrol Price Comparison.	• Diesel Price Comparison by Region, LPG Price Comparison by Region, and Petrol Price by Income Level.	• Fuel Price Trends 2020–2026, Fuel Taxation Comparison, Taxation vs Petrol Price, and dashboard filters.
Customer Thought ***What is the user thinking?***	• “Which countries and regions have higher or lower petrol prices?”	• “How do average fuel prices differ by fuel type, region, and income level?”	• “What changes appear over time, and is tax percentage associated with petrol price?”
Customer Feeling ***What is the user feeling?***	• Curious, but may initially find the dataset difficult to interpret.	• More focused as sorted charts and filters make comparisons easier.	• More confident explaining observations, while recognizing that association does not prove causation.

Customer Journey Map — Continued

Journey Element	Stage 1 Explore & Discover	Stage 2 Analyze & Compare	Stage 3 Interpret & Communicate
Process Ownership ***Who leads this stage?***	• Project analyst checks the Excel dataset and opens the Tableau workbook.	• Project analyst verifies averages, sorting, filters, and comparisons across worksheets.	• Project analyst documents findings and presents the dashboard; reviewers discuss possible implications.
Opportunities ***How can this stage improve?***	• Add concise field descriptions and clear units; verify country mapping and data quality.	• Keep price comparisons consistently aggregated; improve labels and filter guidance.	• Add annotated takeaways and an export-ready dashboard; investigate tax-price relationships before making policy claims.

Note: This journey is illustrative and reflects the project workflow, not formal customer interview findings.
